

OB30STEPX3

30" 11 Function Built-in Oven

Designed for ultimate performance and cooking capability, the 30" built-in Oven comes in three single and two double models, with 4.1 cu.ft. total capacity in each oven. This model has 10 cooking functions, plus a self-cleaning mode and a catalytic smoke eliminator.

Brushed Stainless Steel

Dimensions

Depth	23 29/32"
Height	Ⓐ 27 1/16"
Width	Ⓑ 29 29/32"

Features & Benefits

Perfect Results

The powerful 4400W broiler gives even browning results, and the AeroTech™ convection system circulates air providing even heat distribution, eliminating hot spots and making multi-shelf cooking ideal. The two-step Roast program helps you produce a perfectly tender and juicy roast.

Precise Control

Temperature adjustment is easy with smooth, balanced dial movement. Sophisticated electronics then maintain an even, accurate temperature for better, more precise results.

Sized to Suit

4.1 cu.ft. of total capacity makes this oven big enough to cook a turkey and a large tray of roast vegetables.

Easy Cleaning

No need for harsh chemical cleaners in this oven; simply remove the racks and set to self-clean.

Safe and Sound

CoolTouch doors are safer and improve energy efficiency by keeping the heat on the inside. An advanced heat-reflective coating and innovative cooling system keeps heat where it should be.

Designed to Match

Available in stainless steel finish, these durable ovens match the rest of Fisher & Paykel's coordinated kitchen family.
