Features & Benefits

Convenient

This model is taller than the standard DishDrawer™ dishwasher, so you can fit in large plates up to 13" in diameter. Racking is designed to hold long utensils and can fold away to free up space.

Efficient

This Energy Star™ approved model has the choice of nine wash programs, including Eco options to minimize water and energy usage.

Innovative

Before washing begins, detergent passes through the world's first flow-through dispenser to ensure it is thoroughly dissolved, providing a faster, more hygienic wash with no hint of detergent burn.

Ergonomic

The DishDrawer™ is as easy to open and close as a kitchen drawer and conveniently positioned at countertop height so loading and unloading requires minimal bending. Easy-to-use fold down and pitch adjustable tines allow you to place large pots, platters and bowls into the drawer with ease.

Safe

For added safety, a key lock and child lock are included.

Ecofriendly

This DishDrawer™ uses only two gallons of water on a Normal Eco wash program and is ENERGY STAR rated CEE tier 1 for energy efficiency and cleaning and drying performance.
