

Top Freezer Refrigerator

Quick Start Guide

See your online User Manual for more information

Getting Started

1. Set up your refrigerator

- Remove tape and glue residue and clean surfaces with soap and water before turning on the refrigerator.

Refrigerator Control (Professional)

Freezer Control (all models)

Refrigerator Control (Frigidaire and Gallery)

- Adjust the controls to the factory set **Recommended**. After 24 hours, adjust the controls in small increments (if desired), allowing the temperatures to stabilize. The refrigerator control changes temperatures in both the refrigerator and the freezer. The freezer control moves the damper in the freezer. Adjust the freezer control toward Cold to open the damper, making the freezer temperature warmer. Adjust it toward Coldest to close the damper, making the freezer colder.

2. Keep your refrigerator fresh

- More powerful than baking soda, **PureAir™ RAF-1 Air Filter** absorbs undesirable smells keeping your fridge fresher for up to 6 months.
- Extend the life of fruit and vegetables with **PureFresh Fruit & Veggie Saver™** reducing food waste and saving money.
- Order your **PureAir RAF-1 Air Filter** refill and **PureFresh Fruit & Veggie Saver** at Frigidaire.com or any Frigidaire authorized retailer.

We recommend replacing filters at least once every 6 months.

FAQs

Why does my refrigerator run most of the time? Is this normal?

Today's refrigerators are designed with a variable speed compressor to be more energy efficient than previous models. This means that they run longer cycles, or run continuously, to maintain an even temperature inside. **Please note:** starting a unit takes about 10 times as much energy as it does to keep it running.

Is it normal for my refrigerator to make noises?

Your new high-efficiency refrigerator may make unfamiliar sounds due to the variable speed compressor. See the **NORMAL OPERATING SOUNDS** section of your Use & Care Manual.

We're Here to Support

Have peace of mind knowing Frigidaire is here to always keep your appliance in peak performance.

- Total Appliance Protection:** Extend your manufacturer's limited warranty to ensure you are always protected from surprises, including up to \$250 of food-loss coverage and a worry-free guarantee we'll replace what we can't repair.
